## Professional Summary

Emerging software developer with expertise in Java and a solid foundation in building scalable and efficient applications. Skilled in problem-solving, database management, and delivering robust software solutions. Experienced in leveraging teamwork and collaboration to complete impactful projects. Committed to continuous growth and mastering technologies to drive innovation in software development.

## SKILLS

- **Programming Languages:** Java, Python, OOP.
- **Web Development:** HTML, CSS, Bootstrap, Django.
- **Database Management:** DBMS, MySQL, JDBC.
- **Tools and Technology:** Google Cloud, Git, Github, Power BI, IntelliJ IDEA, Eclipse, VS Code.
- **Interpersonal Skills:** Team Leadership, Problem-Solving, Effective Communication, Adaptability.

## EDUCATION

### Bachelor of Engineering (E&TC)

MVP'S KBT College Of Engineering, Nashik

June 2021 -May 2025

**CGPA 7.04/10**

**Relevant Coursework:** Object-Oriented Programming, Advanced Java, Database Management Systems, Operating Systems.

### Class 12<sup>th</sup> – Maharashtra State Board

M.S.G Jr. College, Malegaon

May 2019 – May 2021

**Percentage – 81.6%**

### Class 10<sup>th</sup> - Maharashtra State Board

K.B.H Vidyalaya, Malegaon

May 208 – March 2019

**Percentage - 78%**

## PROJECTS

### YouTube Video & Playlist Downloader

- Created a Java-based application using the YouTube API, enabling efficient video and playlist downloads.

### Electricity Billing System

- Built a GUI-based Java application for automated billing, customer data management, and reporting functionalities.

### Jal Samruddh Nashik:

- Designed a dynamic website for the Jal Samruddh Nashik campaign, featuring initiative details, project updates, donation systems, and a community gallery for photo sharing.

### Induction Motor Protection & Control System

- Developed and implemented a real-time motor monitoring and protection system with a Bluetooth-based mobile application. Designed the app to enable motor ON/OFF control, real-time monitoring of key parameters, speed adjustments, and automated safety alerts.

## INTERNSHIP

### Software Development Intern, Edunet Foundation-AICTE

Feb 2024 – April 2024

- ✓ Developed and optimized a Django-based academic note-sharing platform as part of the internship project.
- ✓ Contributed to backend logic and UI enhancements, improving engagement metrics by 25%.

### Internshala Student Partner, Internshala

August 2023 – October 2023

- ✓ Promoted skill development courses, achieving a 20% increase in course enrollments.
- ✓ Conducted workshops enhancing communication and presentation skills.

## CERTIFICATIONS

- ❖ Google Cyber Security Certificate (Coursera)
- ❖ Building Data Analytics Application with Cloud (Next Gen Employability Program)
- ❖ Google Cloud Arcade Badges
